

Klaus Vogelberg

I have lived in Humshaugh since 2013, having moved to the UK with my young family in 2000 for a work secondment. I grew up in Switzerland and Germany, but we loved the people and place of Northumberland so much that we stayed!

Professionally, I am a technology executive of a global software company headquartered in the North East and a Fellow of the British Computer Society (FBCS). I started my first technology business aged 19 whilst studying aeronautical engineering and national economics. Looking back, it was my math and science teachers that sparked my interest in computing and ultimately inspired my career.

I believe that good primary education and pastoral care are crucial to seed the skills and talents needed in the future. I consider it a privilege to serve as a foundation governor of Humshaugh First School, and subscribe to a servant leadership style rooted in my Christian faith.
