

Richard Dodds

I am a member of the farming community living two miles East of Humshaugh on a mixed farm which is comprised of livestock and arable. It's family run along traditional lines. My three children, the last of whom left in 2010, went to Humshaugh C of E School as did myself and my wife, who while the children attended was an active member of the PTA. I was invited to become a foundation governor in 2007 and have acted in that role since then, with my current term ending in June 2015. In earlier years I enjoyed playing table tennis in the youth club run in the Methodist Church of which I became a member.
