

### **Governor Profile -Sarah Dodd**

I grew up in Humshaugh and went to the first school in the late 1980's. After moving away for university and living around the UK with my husband, who is serving in the military, we moved back to Northumberland.

Our two children have both attended Humshaugh First School, and I am passionate about the success of the school for all our local children.

I have worked in various roles in special educational needs, social care and school business, over the last 17 years. I currently work in family support at a local SEND school.

I hope my experience and passion for Humshaugh will be a strong addition to the governance team.
