

Mrs Mary Pedley, Foundation Governor (Newcastle Diocesan Board of Education)

Newbrough has been my home for 11 years, though I have lived in the North East for many more. Being involved in schools as a governor has added much to my enjoyment of living in village communities. I am also a committed Christian and work with the Diocese of Newcastle Board of Education in church school inspection.

My career in primary school teaching has been rewarding but hard work: I have always loved helping children to learn through enjoyable classroom teaching. Because I am still involved with Primary Education through teacher training and school inspection, I hope I can offer relevant knowledge and experience to the team of governors at Humshaugh CE First. I believe we work well together in how we manage the school and help children to learn well.
