

### Governor Profile-Jenny Nohl

I am pleased to be a governor at Humshaugh First School, having known the school since 1996 when the first of our three children joined the reception class. During our children's time at the school, I was an active member of the PTA (secretary, Chair) as well as helping out as a reading volunteer.

Since retiring from work as an NHS physiotherapist, I've started to volunteer at the school again, helping with reading practise, refreshing the library, and now am a foundation governor. I love going into school and working with the children and staff. I feel strongly that a good village first school is a fantastic start to education for our children, and I am happy to actively support this.

I am involved in other activities in the village, such as H.A.P. (Humshaugh Arts Programme) which arranges film nights and other events in the village hall, the village choir (North Tyne Voices), the Crown Players, and the village community shop.
